9. Mr R T Olivier: That the House notes that, despite claims by the WCED that there is an influx of thousands of learners into the province, the WCED has no plans to provide new teaching posts to meet the demand, and, therefore, call on the national Minister Angie Motshekga to institute an investigation into the state of education in this province.
10. Mr L E Magaxa: That the House, affirming that the Republic of South Africa is a unitary state led by the ANC government, condemns the visit by DA leaders to countries like Israel and Taiwan as undermining our country's international relations policies, and condemns DA leader Mmusi Maimane and his delegation and the DA Tshwane mayor Solly Msimanga for their recent defiant visits.

21. Ms L J Botha: That the House condemns the carelessness of SASSA which, by their own accord, will not be ready to process grant payments to all beneficiaries by 1 April 2017.
22. Ms T M Dijana: That the House serves Cape Town mayor Patricia de Lille with a summons for failing to appear before the Standing Committee on Environmental Affairs to brief this constitutional oversight structure on the usage of water amidst the low dam levels experienced at present, and to explain why she defeats the work of this legislature.

Mr R T Olivier: That the House notes that more than 18 000 learners missed out on the first week of school as they were unplaced, further notes that the WCED always blames learners from the Eastern Cape to cover up its poor planning, and calls on the WCED to improve its registration processes to prevent the recurrence of this challenge next year.

Mr R T Olivier: That the House notes the refusal of the WCED to maintain and renovate properly the Uitsig Secondary School after it was vandalised during school holidays and its plans to close down the school, commends the learners and parents for their continued fight against the looming loss of their community school.

31. Mr Q R Dyantyi: That the House notes that Cape Town merely wants the present low supply of water to be declared a disaster in order to milk the national fiscus for more money, also notes that this municipality had, on several occasions, issued municipal bonds to improve capital projects but is now shifting responsibility to the national government whereas it is in a position to raise loans to improve its water and reticulation systems on its own.
32. Mr M Mnqasela: That the House notes that the ANC failed to support a moment of silence for the more than 100 disabled patients who were moved from state institutions in Gauteng to allegedly unregistered NGOs where they eventually perished.
