NOTICES OF MOTION (7 November 2024)

1. Ms D Stephens: That the House congratulates the PA for winning the by-election in George.
2. Ms A Cassiem: That the House notes that last week Guguletu residents took to the streets to demand the construction of a district hospital that was promised by the provincial Department of Health and Wellness a few years ago; further notes that the residents are against the idea of the hospital being constructed where their sports field is currently situated as the field serves a good purpose in the society; notes that residents further complained that the KTC Community Centre no longer serves its purpose as it can no

longer meet the needs of the growing population, and it is in a state of despair with poor services, not wheelchair-user-friendly and with no proper parking area; and calls on the provincial Department of Health and the Department of Infrastructure to work together to ensure that Guguletu has a district hospital with a trauma unit.

3. Ms R Windvogel: That the House notes with concern reports that at least 20 learners from the Mzamomtsha Primary School in Driftsands, Cape Town, were rushed to a local clinic on Wednesday morning after complaining of stomach cramps; further notes that, while 18 of the learners have since been discharged, the cause of the incident remains unconfirmed, and that circulating rumours suggest food poisoning as a possible cause; calls on the WCED and other relevant authorities to investigate the cause of the incident thoroughly and to ensure that no stone is left unturned in identifying the source of the problem; further calls on the WCED and the relevant health authorities to implement stricter measures regarding the food sold at schools and provided to learners through the National School Nutrition Programme (NSNP) to safeguard the health and well-being of all learners across the province; and expresses support for efforts to ensure that proper health and safety standards are upheld in school environments, especially in relation to food safety, and that corrective action is taken as necessary to prevent any recurrence.
4. Ms A P Bans: That the House notes the action of the Disability Revolution group, which led a picket at the Civic Centre on 5 November 2024 to demand better access to public transport for people with disabilities in the City of Cape Town; supports the group's call for the City of Cape Town to include specific measures in the Comprehensive Integrated Transport Plan (CITP) 2023–2028 to address the transport needs of people with disabilities, particularly those from poor communities and informal settlements; acknowledges the challenges faced by people with disabilities, as highlighted by the group, including inadequate public transport infrastructure, the lack of consultation on the Dial-a-Ride business plan, and the inaccessibility of certain transport services and facilities, such as taxis, trains and stations; recognises the dignity of every individual and the urgent need for equitable transport access for people with disabilities, including affordable, reliable and accessible transport options in both formal and informal areas of the city; calls on the City of Cape Town and other relevant authorities to heed the call made by the Disability Revolution group to update the CITP to include comprehensive, actionable plans for improving transport access for people with disabilities, and to ensure that their voices are properly heard in the planning and implementation of transport policies; and further calls on the City of Cape Town to ensure that future public transport services, including the Dial-A-Ride system, are designed with input from people with disabilities and that accessibility is prioritised so that no person is left behind due to their mobility needs.
5. Ms A P Bans: That the House notes with concern the protest action by the residents of Guguletu, Cape Town, who, while acknowledging the urgent need for a new healthcare facility in their community, have expressed strong opposition to the proposed site for the hospital on the existing sports field; recognises that the Guguletu community, particularly the youth, rely on the sports field for recreational activities, and that the loss of this space would have a significant impact on their well-being, especially in the light of the ongoing social challenges and the involvement of the youth in gangs; supports the community's demand for the construction of a new hospital with the necessary facilities, including a trauma unit, obstetric unit and maternity ward, to address the health needs of the growing population of Guguletu and the surrounding areas, such as Philippi, Lusaka and the informal settlements; acknowledges the critical importance of preserving existing

recreational spaces, such as the sports field in Guguletu, which serves as a vital outlet for physical activity and social cohesion, especially given the social ills affecting the youth in the area; calls on the Western Cape Department of Health and Wellness and the City of Cape Town to identify an alternative site for the construction of the new hospital, one that will meet the healthcare needs of the community without sacrificing valuable recreational spaces; urges that a consultative process be undertaken, involving the relevant stakeholders, including local sports clubs, schools and residents, to ensure that both healthcare and recreational needs are balanced and adequately addressed; and further calls on the government to prioritise the development of both essential healthcare infrastructure and accessible spaces for youth engagement in order to promote holistic community development and well-being in Guguletu.

6. Ms D Stephens: That the House notes that the Western Cape Minister of Social Development, Mr Jaco Londt, and the Department of Social Development are urgently called upon to intervene at the Benevolent Park Old-age Home in Mossel Bay; notes that the reports from the community indicate that residents who express views differing from those of the management face discrimination and victimisation; notes that this institution, which should be a haven of comfort and respect, risks failing its duty to the most vulnerable in our society – our elderly; notes that it is both a moral and legislative responsibility of our government and community to ensure that our senior citizens live in safety, dignity and free from mistreatment; this House, as the voice of the people, must prioritise the welfare of our elderly and act to eliminate any form of neglect or abuse in facilities entrusted with their care; and trusts that this matter will be handled with urgency and a comprehensive investigation be done to uphold the standards of care expected in our province.
