Sport Development:

Programme/Initiative	Description
MOD Programme	The MOD (Mass participation; Opportunity and access; Development and growth) Programme, is an after-school, mass participation programme that provides school-going children with access to various fun-filled, play-based, recreation-based, modified activities on a daily basis. This programme is hosted across the Province, at MOD Centres that are based at either a Primary School or a High School.
Neighbouring schools Programme	In addition to the MOD Centres, support is also given to interested schools that are neighbouring the relevant MOD Centres. This approach has assisted with neighbourhood development, as it links the MOD Centres, to the relevant recreation, sport, arts and culture activities and structures that are present in a specific neighbourhood and if these are not present, then a process that will give rise to the relevant activity and/or structure, e.g., a sport club and/or a dance club, is initiated and driven.
School Sport Programme	To promote school sport by assisting with structures, competitions, talent identification, development, as well as specific, and next-level activities. Ensure there is a pathway for talented school-going athletes to be exposed to competitions at club and federation level, thus exposing them to further talent identification opportunities.
Recreation Programme	To promote recreation activities through sustainable programmes; to provide assistance to recreation structures for specific development purposes; and to use recreation to promote and encourage an active and healthy lifestyle. Centres provide fun-filled, play-based, recreation-based, modified activities on a daily basis to community members, with a focus on recreation activities, indigenous games, golden games etc.

Culture, Arts, Recreation, Education and Sport (CARES) Complexes	<p>The intention of this multi-purpose, facility development initiative is to promote and support a shared-facility approach. This approach broadly speaks to facility utilisation being made available to all the schools in a relevant District, and more specifically, to approximately twenty schools in the relevant neighbourhood. The facilities, which are known as Culture, Arts, Recreation, Education and Sport (CARES) Complexes, are also utilised on a regular and continuous basis by, for example, school-based clubs, for next-level talent development, mastery and career-based activities that takes place at school-, neighbourhood-, local-, District, Provincial and National level.</p>

Mass Participation Sport and Recreation Grant:

This Conditional Grant is to facilitate sport and active recreation participation and empowerment in partnership with relevant stakeholders. This has resulted in increased and sustained participation in sport and active recreation as well as improved sector capacity to deliver sport and active recreation. An allocation has been made to achieve outputs in School Sport, Active recreation, Club Development and Sport Academies. In the last three financial years, R 30 million has been ringfenced and allocated for the preparations of the Netball World Cup 2023.

Allocations:

2019/20 – R 56 064 000.00

2020/21 – R 60 354 000.00

2021/22 – R 88 883 621.00

2022/23 – R 91 221 003.00
